

**SEVIS**

INDUSTRIAL PLANT EQUIPMENT  
& SPARE PARTS TRADING LLC

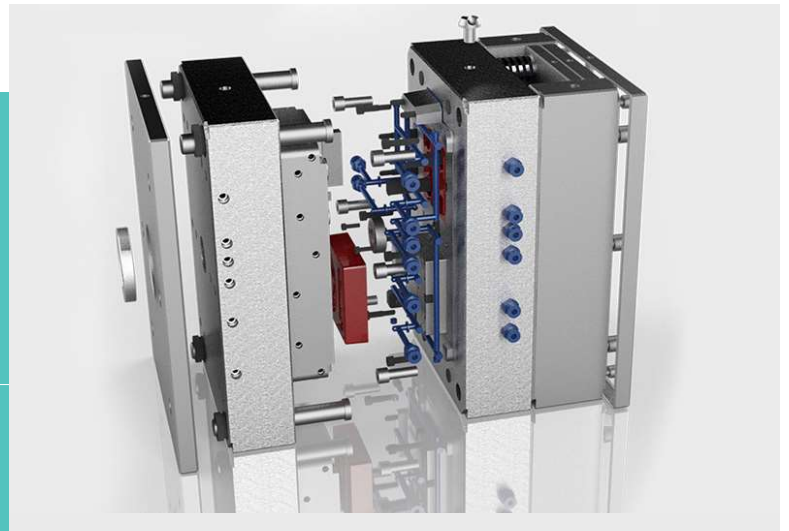

## INDUSTRY-SPECIFIC ENGINEERING

**SEVIS** Industrial Plant Equipment & Spare Parts Trading LLC is your specialist for mould manufacturing, assembly, and precision engineering. Our experienced design and engineering teams delivers high-quality service and solutions.

## OUR SERVICES

- ⑤ CNC MACHINING
- ⑤ VMC MACHINING
- ⑤ ELECTRICAL DISCHARGE MACHINING (EDM)
- ⑤ SURFACE GRINDING
- ⑤ WATER JET CUTTING
- ⑤ LASER ENGRAVING
- ⑤ CONVENTIONAL LATHE

Crafting custom injection and blow molds to match your design and requirements, along with professional mold servicing.

Using most modern 3D printing to craft product prototypes, allowing you to visualize and touch them before advancing to pre-production.

Manufacturing changeover parts for filling machines with precision and quality equal to OEM standards.

Our CMM facility provides micro-level measurements, facilitating the production of calibration tools for PVC and CANS industries.

Formulating engineering plastics, applicable across wide range of uses including worm screws and feed screws, in both food-grade and non-food-grade options.

Metal fabrication, customizing parts to client specs, and optimizing production capacity, especially for MS, stainless steel, and aluminum.

Utilizing our tool room and turning machine facility, we manufacture engineering components from varieties of metals.

# ABOUT US

**SEVIS**, a dynamic company powered by a diverse team of experts. We're newly established but driven by a shared passion to make a positive impact in the industries we serve. Our professionals, from various fields including Engineering, Technology, Manufacturing, and Services bring a wealth of experience. We work collaboratively, fostering innovation to provide cutting-edge solutions. You, our valued client, are at the heart of our mission. Our customer-centric approach ensures tailored solutions that exceed your expectations. Sevis is your partner for innovation and success. Join us in creating a brighter, more sustainable future for your business and community.
